

# Progression with bonuses!

This programme is about helping you to progress – whether to work, apprenticeship or higher level training. However, progression can be a big step, even scary, so we can offer any support you need.

To inspire you further, and as a reward for your efforts, we are providing

every participant with a **bonus of £100** when they have completed 4 weeks in their new job or course!

So whether you have finished college or university or need support in finding your first job, we can work with you to help you to build a long term career plan.

# CAREER NET

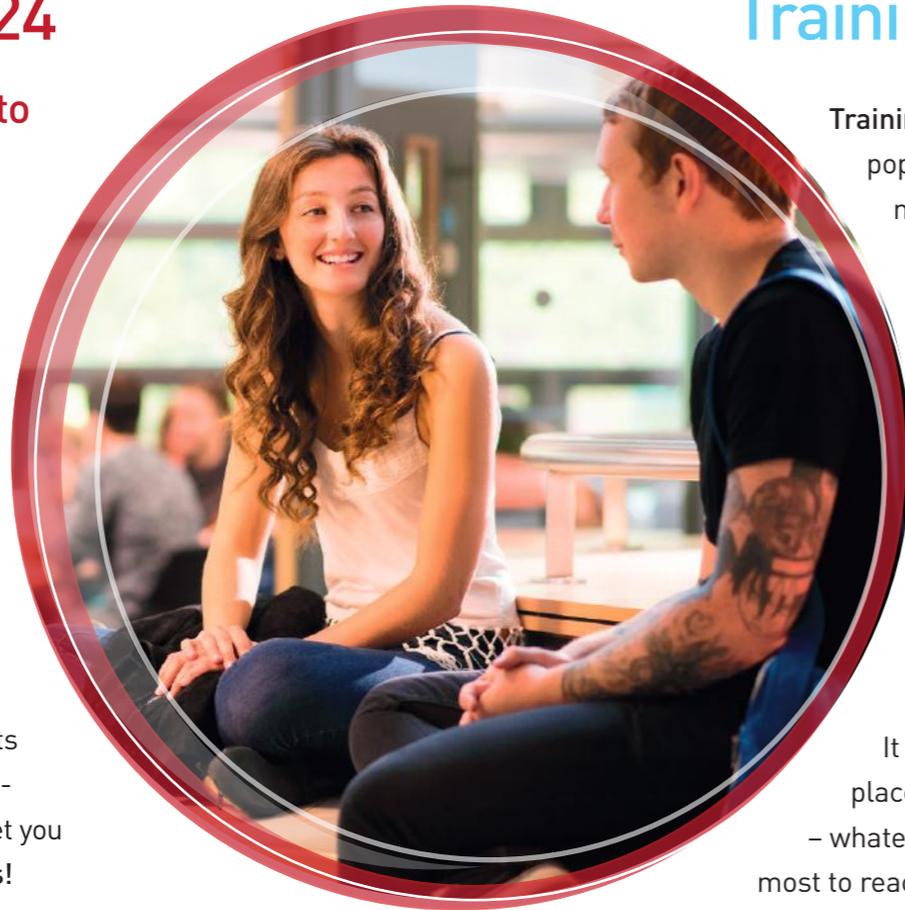

18-24  
Greater  
Lincolnshire

## Aged 18-24

### and struggling to make a career choice?

Get in touch with Career Net - we can offer advice about a wide range of careers, as well as a personalised development programme tailored to your skills and interests. Access training, company visits and work placements - whatever it takes to get you on the **road to success!**

## Training

Training can include popular certificates necessary for certain workplaces such as Food Safety, First Aid, CSCS card, PAT testing, safeguarding; or it can involve **vocational tasters** to see if you would enjoy a new field that you hadn't considered.

It could include a work placement or work trial - whatever would help you most to reach your goals.

## Raising aspiration

In the next 10 years, there are going to be plenty of high quality jobs in Lincolnshire - learn where they are likely to be and position yourself to benefit from these opportunities. We'll look at the **labour market** and invite **employers in to talk** about what they will have to offer. You can participate in leadership development or become involved in community projects that **make a difference.**

## Careers not jobs

What we mean by this is that we will help you build a career, not just take the first job on offer.

This doesn't mean that you shouldn't start with a basic level job - but think about the long term opportunities that it offers. Maybe it helps you to pay the bills while you train, or maybe it's **the first rung on the ladder** to your dream career. You can get access to **self-assessment tools** - diagnosing strengths and weaknesses as well as your own personality and work-readiness profile.
